

The Waldorf School of San Diego: School Tour Schedule 2011-12

"A Day at The Waldorf School" Tour is a comprehensive tour through all or our programs: Nursery, Kindergarten, Elementary Grades 1-8, and High School. It is highly recommended to attend all tour segments so that you can clearly see how our programs progress through the years, fully supporting the developing child. Tours are strictly *adults only*, R.S.V.P. is required and a light breakfast is served. You have the option of driving yourself over to our High School campus or we will convey you in one of our school vans. *Attending a tour is mandatory prior to enrollment.*

This tour event begins promptly at 7:45am and latecomers cannot join tours already in progress.

7:45am sharp: Registration & Refreshments

Sign in, get your name tag and enjoy a light breakfast, then we begin promptly at 8am.....

8:00am sharp – 8:45am: Nursery & Kindergarten

The first segment of our tour begins with one of our soft spoken teachers walking you through the gentle rhythms of a day in the play-based nursery and kindergarten programs. Due to the tender age of the children in the early childhood program, we will visit their class while they are out on the Kindergarten yard and then take a quick peek at their outdoor play. Quiet observance is our goal, and we will answer all your questions at the conclusion of this segment.

8:50am sharp – 9:45am: Elementary Grades 1-8

The next segment of the tour continues with a visit to several grades' classrooms for a glimpse into the elementary curriculum. We may see the younger students doing math work using jump rope or bean bags, a class playing their flutes or a guest teacher in Grade 6 using stained glass to illustrate Euclidian Geometry. Time is reserved between classes for an overview of the elementary grades curriculum and to answer your questions. We will also touch on topics such as media, homework and discipline.

9:50am sharp – 10:20am: Specialty Subjects

This segment of the tour will allow us to experience one of the several specialty subjects. You will learn how directing a child's will(power) can be done most effectively by putting their hands to good work.

10:25am sharp – 11:30am: High School

After driving to our second campus, the final segment of our tour brings us into the upper grades where we will be joined by a member of our High School faculty. We'll visit the classrooms to see more about the upper grades approach to science and technology, the humanities, the arts, language and cultural studies, and athletics and outdoor adventure. See how Waldorf education truly supports the adolescent, fostering a strong moral compass, a sense of civic responsibility and a lifelong love of learning.

In consideration of others it is VITAL to arrive on time, and latecomers cannot join segments already in progress.

Dates:	~ Wednesday, October 19, 2011	7:45am sharp
	~ Wednesday, January 18, 2012	7:45am sharp
	~ Wednesday, February 15, 2012	7:45am sharp
	~ Wednesday, March 7, 2012	7:45am sharp
	~ Wednesday, April 18, 2012	7:45am sharp
	~ Wednesday, May 9, 2012	7:45am sharp
	~ Wednesday, June 6, 2012	7:45am sharp
